Summary

Motivated and detail-oriented Python Full Stack Developer Intern with a strong passion for web development and continuous learning. Skilled in Python, HTML, CSS, MySQL, and currently expanding knowledge in JavaScript, React. Interested in building user-friendly web applications and improving problem-solving skills through real-time projects and daily practice.

Internship Experience

Python Full Stack Developer Intern,

BDreamz Global Solutions Pvt Ltd, Chennai.

Jan 2026-Present

- Assisted in developing and maintaining web application features using Python and front-end technologies.
- Worked on responsive user interface design using HTML and CSS for better user experience.
- Gained practical exposure to database operations and backend integration using MySQL.
- Improved debugging, problem-solving, and coding skills through hands-on project development.

Technical Skills

Languages - Python, MySQL, Frontend

Database Management - MySQL, Query Writing, Joins, Aggregate Functions, Data Storage & Retrieval.

Tools & Platforms - PyCharm, VS Code, MySQL Workbench, GitHub, MS Word

Projects

Mental Health & Addiction Recovery Management System

Python | MySQL

- A desktop-based application built using Python (Tkinter) and MySQL for managing mental health and addiction recovery data.
- Features include user assessment, automated score calculation using SQL triggers, and an admin analytics dashboard for data analysis and monitoring.
- Demonstrated skills in Python programming, database integration, and GUI development.

AI Based Smart Irrigation System Using Weather Prediction

ESP32 | IoT

- Built a prototype integrating ESP32, LM393 soil moisture sensor, DHT11, relay module, and submersible pump, powered LM2596 buck converter.
- Implemented AI-based decision logic on the ESP32 firmware to combine soil moisture readings and rain probability from the OpenWeatherMap API, automatically activating the pump when needed to conserve water.

Education

- **B.E. Electronics and Communication Engineering**
PSN Institute of Technology and Science, [CGPA: 7.93]

2022-2026
